View the DVD With Your Child and M

Children learn best through interactions with their loved ones. Sharing a fun, engaging experience builds a close bond between you and your child. View this DVD with your child and see how the baby Muppets and their caregivers make music together. These experiences may seem very simple, but they build close bonds between caregiver and child and foster learning as well. By adding music to meaningful moments each day, the caregivers in the video heighten their children's excitement and curiosity. All it takes is the sound of your voice, the clapping of hands, perhaps a simple song about getting dressed and children are using their bodies and their minds as they learn and grow with you.
